**Unfinished Business:**

- a. Future Navigational Trimming: Citizen requests received for trimming at the end of the Oglesby Waterway, the Jupiter Waterway between the Jacobs Street & Biscayne Boulevard bridges, and the Cheshire Waterway north of the Chamberlain Boulevard bridge. Mr. Patchell noted a price per square foot is not feasible as it varies by density & size of the vegetation to be removed. He added that prices have increased exponentially since last year. Mr. Chial provided photos of the areas (see attached), discussion ensued regarding the three requested locations, if the dredging contractor could perform trimming, estimated timeline of a project and the \$75,000 budget. It was agreed to select areas that would provide the most benefit to the most properties, selecting the worst areas and possibly stretching the budget farther by selecting one waterway. Mr. Joannes motioned to prioritize the Cheshire Waterway north of the Chamberlain bridge, seconded by Mr. Fisher and unanimously approved. Conversation followed regarding prioritizing additional areas if quotes come back under budget, Mr. Joannes motioned that if the quote comes in under budget, the second priority will be the Jupiter Waterway, addressing the worst areas between the Jacobs Street & Biscayne Boulevard bridges and between the Biscayne Boulevard and Chamberlain Boulevard bridges through a change order to the contract, seconded by Mr. Smith and unanimously approved.

**Citizen Input on MSBU Items (3 Minute Limit):**
