

**MINUTES
WEST CHARLOTTE STORMWATER UTILITY
MUNICIPAL SERVICE BENEFIT UNIT (MSBU)**

**ADVISORY BOARD REGULAR MEETING
WEDNESDAY, JANUARY 8, 2025**

9:31 a.m. – 11:20 a.m.

**Mac V. Horton West County Annex, Room 120
6868 San Casa Drive, Englewood, FL**

Members Present: Hank Killion, Vice Chair
John House
Geoffrey Norton

County Staff: Lorraine Moneypenny, Community Liaison
Brandon Moody, Water Quality Manager

Guests: Sign-in sheet attached

Call to Order / Roll Call:

The Vice Chair called the meeting to order at 9:31 a.m. A roll call was taken. A quorum was present.

Changes to the Agenda / Motion to Approve Changes:

All Board members agreed to add Water Quality Monitoring Program to the top of the agenda.

Citizen Input on Agenda Items (3 Minute Limit):

None

Approval of Minutes:

The minutes of July 24, 2024 were unanimously approved as submitted.

Election of Officers:

Mr. Norton nominated Mr. Killion for Chair. Mr. House seconded, and Mr. Killion was elected unanimously. Mr. House nominated Mr. Norton for Vice Chair. Mr. Killion seconded, and Mr. Norton was elected unanimously.

Robert's Rules of Order / Sunshine Law

Mr. Norton motioned that the annual training be deferred to the next meeting. Mr. House seconded, and the motion carried.

Unfinished Business:

- a. Water Quality Monitoring Program: Mr. Moody presented the results of post-hurricane water sampling. High rain events like Hurricane Ian impact bacteria and BOD levels more severely than even acute surge events like Hurricane Milton.

Mr. Moody's department, while monitoring water levels on Manasota Key and in Lemon Bay, seeks to acquire and place monitors in more places, and make their data available to the public in an online portal.

Citizen Input on MSBU Items (3 Minute Limit):

None

Advisory Board Open Discussion:

The community liaison explained the plan to address the overgrown major drainage ditches in Rotonda West intensively for a month in each of the next five winters, starting with the ditch behind Fairway this March. Mr. Killion recalled the prediction of Public Works Director John Elias that bringing Rotonda West drainage assets back to maintainable condition might take twenty years, starting with the repair and lining of pipes – now largely complete. Mr. Hedges said the RWA has already removed dead trees from that greenway area. The County would benefit from using the same access points he arranged.

Mr. Killion repeated a suggestion that the County get an easement to create a turn-around point on the closed road leading to Rotonda West Bridge 13. In fact, that suggestion was approved by John Elias. Real Estate Services is already working on it.

Schedule Meetings / Items for Next Agenda:

Future meetings are scheduled for 9:30 a.m. at the Mac V. Horton West County Annex as follows:

- Wednesday, April 9, 2025
- Wednesday, July 9, 2025
- Wednesday, October 8, 2025

The meeting adjourned at 11:20 a.m.

Submitted by Lorraine Moneypenny

PROJECT DESCRIPTION:		PROJECT RATIONALE (Include Additional LOS Detail, if necessary):																					
Continue to implement the National Pollution Discharge Elimination System (NPDES) Phase II permit for Charlotte County. The permit includes coordination with Florida Department of Transportation.		As required by the Environmental Protection Agency (EPA), operators of storm sewer systems are required to implement programs and practices to control polluted stormwater runoff. This project is to reduce adverse impacts to water quality and aquatic habitat by instituting the use of controls on unregulated sources of stormwater into Charlotte Harbor.																					
Funding is split equally between Mid Charlotte, South Charlotte, and West Charlotte Stormwater Units.		Charlotte County received the first 5-year permit in 2003. The most recent renewal of the permit was received in January 2018 and is in effect until December 31, 2022. Minimum project requirements are public education and outreach, public participation/involvement, construction site runoff control and pollution prevention.																					
OPERATING BUDGET IMPACT:		There are no additional operating impacts associated with this project.

PROJECT DESCRIPTION: The objective of the TMDL initiative is to develop water quality based controls to reduce pollution from both point and non-point sources and to restore and maintain the quality of water resources in designated areas identified by EPA/FDEP. The Engineering Consultant will address EPA and/or DEP requirements pertaining to initial development of this program. This work may include but not be limited to: modeling of pollutant loadings at locations designated by EPA and/or DEP and recommendations to address any mandated stormwater management projects.																																																																																																																																																																																																																																																																																																																																																																																												
OPERATING BUDGET IMPACT: Funding is split equally between Mid Charlotte, South Charlotte, and West Charlotte Stormwater Units.
